Adetola Adelase

Data Analyst | Developing my practice in Data Science

Manchester, UK · Sage Manchester/Newcastle

Portfolio: tola-adelase.github.io · GitHub: Tola-adelase · LinkedIn: adetola-adelase

PROFILE

Data Analyst in Commercial and Sales Operations at Sage, with an MSc in Data Science and Computational Intelligence. I bring commercial context, statistical thinking and clear communication to analytical questions. My personal and academic projects explore regression, experimentation and NLP, supported by continued Data Science development through Multiverse.

TECHNICAL FOUNDATION

SQL · Power BI · DAX · Data modelling · Python · pandas · NumPy · scikit-learn · Statistical analysis · Regression · A/B testing · Topic modelling

PROFESSIONAL BACKGROUND

Data Analyst

Sage · Manchester/Newcastle | June 2022–present

Commercial and Sales Operations analysis, business intelligence and communicating insights to support business questions.

Data Analyst

Data Fiend Consulting | January 2019–July 2022

Data preparation, analytical reporting and communicating findings.

Technical Support Engineer

Tek-Experts | April–December 2018

Technical troubleshooting, user support and Microsoft Azure.

EDUCATION AND CONTINUED LEARNING

Data Fellowship Level 4

Multiverse | In progress

MSc Data Science and Computational Intelligence

Coventry University | 2021

Data Analyst Nanodegree

Udacity | 2022

BTech Information Technology

Bells University of Technology, Nigeria | 2013

Selected personal projects

Detailed methods, evidence and limitations are available in the linked portfolio case studies.

FOOTBALL MATCH LAB

Interactive player comparison for the 2022 World Cup final using StatsBomb Open Data. A reproducible Python preparation script, player/period filters, shot-zone summaries, exact-value tables and source-to-summary checks. Descriptive analysis, not a prediction model.

Read project: football-match-lab.html

FOOTBALL PLAYER VALUATION

MSc dissertation exploring 8,480 cleaned historical SoFIFA records and regression approaches. The case study discusses correlations, financial proxy features and limitations in the historical evaluation. No validated predictive-accuracy claim is made.

Read project: football-case-study.html

E-COMMERCE A/B TEST

Udacity project comparing landing-page conversion for 290,584 analysed users. A standard-library companion reproduces the primary rates, effect estimate, confidence interval and z-test from the supplied CSV.

Read project: ab-testing-case-study.html

TOPIC MODELLING ON ARTICLE TITLES

Comparison of LDA, LSA and HDP on 8,000 Medium article titles. The case study combines saved coherence evidence with keyword inspection and methodological caveats. The original dataset is not bundled.

Read project: topic-modelling-case-study.html

WRITING

I write personal essays as axerhitta at Soft Musing by Tola, reflecting on patterns, perspective and expression.
